

LCC Security Management

Competent assistance worldwide, minimised security risks

Increasing travel volumes at worldwide level and the current global political landscape make security aspects for business travels more and more important. Furthermore, companies need a suitable risk management due to legal stipulations, such as an employer's duty of care. We cooperate with experienced partners in the crisis and risk management field that have international expert networks so that everything can be arranged promptly in case of emergency. These partnerships allow us to provide you with different modules which can be customized to fit your needs:

LCC Travel Alert

Journey-relevant announcements on current events and hazards will be sent to the email addresses you have registered or by SMS.

Traveller Tracking System

If required, travellers can be located at the press of a button to allow you to take quick action in an emergency.

Medical assistance and security assistance

Our partners provide qualified medical assistance to business travellers in case they need it. They also offer information about the security situation at your destinations as well as security training.

Our web-based **LCC Global Reporting** offers an optional Duty of Care module to track travelers and communicate with them via text or email messaging. All present and future travelers appear on an intuitive interactive world map where you can quickly identify and assist them as appropriate.

Our partners at a glance

These services are bundled by **TRISAVO**, a company that offers focused competencies for comprehensive protection worldwide:

A3M hosts the Global Monitoring portal which draws up travel alerts, country information and traveller tracking. Working with **MD Medicus**, 24/7 medical advice and assistance and non-medical emergency services are offered, while the **Result Group** is on hand to offer advice on developing the travel risk management, security training, risk assessments/site surveys and security assistance.

International SOS is a global service provider for medical assistance and security and maintains a presence in over 70 countries on five continents. In addition to planning and preparing for trips, the services include medical and security assistance during the stay abroad. Quick assistance in an emergency is guaranteed.

Corporate Trust is a consultancy firm for security services. As a strategic partner in terms of risk and crisis management, it supports companies, organizations and private individuals in the high-level-security area.
